## AN INTERGENERATIONAL FUND FOCUSED ON QUALITY, SUSTAINABLE COMPANIES

Recommended minimum investment horizon: **5 YEARS**

SFDR Fund Classification\*\*:

Article **9**

Increased life expectancy and major social changes have caused investors to reconsider how their investments can benefit their children and their grandchildren. **Carmignac Portfolio Grandchildren** (UCITS) is a global equity fund looking for quality companies across the globe and only invests in select few which demonstrate high sustainable profitability and strong environmental, social and governance (ESG) credentials. The Fund seeks to achieve long-term capital growth for its investors, with a recommended holding period of at least five years.

### KEY POINTS

**An intergenerational and responsible fund** geared to the long-term, seeking to help investors build a legacy for their children and grandchildren.

**A focus on quality companies**, with sustainable profitability and reinvestment of profits for future growth to seek a high compounding effect.

**A selective investment process** based on rigorous fundamental analysis, quantitative screening and socially responsible investment filters and analysis.

**A concentrated portfolio** of high conviction names seeking to provide steady growth of investors' capital over the long term.

### 'QUALITY' IS THE NAME OF THE GAME

**Quality companies offer a high compounding effect and tend to be more robust during economic downturns.**

They are typically less leveraged and have stable margins, making them more cash generative and in turn, allowing them to reinvest for the future. By reinjecting capital into their business rather than paying out dividends, they can remain profitable over time.

**For us, the concept of quality is also intrinsically linked to the environmental, social and governance trail these companies leave behind.**

Thus, we use socially responsible investment filters to refine our selection, such as excluding companies operating in harmful sectors and emphasizing those which have a positive contribution to society or the environment.

We want your grandchildren to benefit from your capital, and we also want them to live on a planet where they can enjoy it: both long-term profitability and responsible investment go hand in hand.
