Carmignac is pleased to announce the launch of a UK-domiciled OEIC fund range, making its strategies more accessible to UK investors.

Convinced of the UK's strong growth potential and positioning as a strategic investment market, Carmignac opened a local branch in 2012 with Maxime Carmignac at the helm. Since then, the firm has been actively developing its activities through its French and Luxembourg-based investment strategies.

After several years spent building a strong and in-depth knowledge of both the UK market and the needs of its clients, Carmignac has decided to create a bespoke offering to better service local investors. Launched in partnership with FundRock Limited Partners, these six Funds encapsulate Carmignac's longstanding expertise in managing assets and covering investment universes and asset classes in which the firm is highly proficient in and has been recognised for.

Therefore, from today, UK investors will be able to invest in six UK OEIC funds offered by Carmignac:
